

Silicon Storage Technology, Inc.

**Product Change Notification Number: SP100802**

**Date: August 2, 2010**

**Title: Change of Marketing Part Number Logo Marks**

Dear Valued Customer,

As jointly announced on July 8, 2010, Microchip Technology, Inc. granted Professional Computer Technology, Ltd. ("PCT") an exclusive limited license to sell certain Serial NOR-Flash products from Microchip's Silicon Storage Technology subsidiary ("SST") in Taiwan, China, and Asean to specific market segments. Part of the agreement requires changing of SST Marketing Part Number (MPN) including logos and part markings for these certain SST products to PCT MPN, logo, and part markings.

Please refer to Appendix A for an example of the new PCT MPN and its comparison with the current SST MPN. Please refer to Appendix B for PCT's Topside Mark Drawing Specifications.

All devices bearing the new PCT MPN logo mark will be identical in form, fit and function to the current SST products. Our schedule for all MPN changes and old product availability is as follows:

**On September 1, 2010**, PCT will begin shipment of products bearing PCT MPN for licensed market.

**After October 31, 2010**, PCT plans to stop shipping devices with the current SST MPN for the licensed market. PCT will continue to sell the products bearing SST MPN for licensed until current inventory is depleted.

We are committed to providing the highest level of customer service. Should you have any questions regarding this transition plan, please feel free to contact your local sales representative for more detail.

We appreciate your business and look forward to serving your needs in the future.

Sincerely,

Sirak Brook  
Vice President, Memory Business  
Silicon Storage Technology, Inc.

Tim Fu  
Chairman & President  
Professional Computer Technology, Ltd.
